

Company Profile

Erudite Company Nigeria Limited

Company Overview

Incorporated on **31st October 1991**, **Erudite Company Nigeria Limited** is a dynamic, multi-disciplinary enterprise with expertise in **engineering, energy, oil & gas, ICT, and general contracting services**. Over three decades of operations, the company has built a reputation for **excellence, integrity, and innovation** in delivering large-scale and complex projects across Nigeria.

At Erudite, we are more than a project execution company — we are a strategic development partner. Our operations are driven by a philosophy of **sustainability, professionalism, and client satisfaction**, with every project executed to meet international best practices. With a highly experienced leadership team, a skilled workforce, and a network of partners, Erudite continues to play a vital role in **national development, industrial growth, and technological advancement**.

Leadership Team

1. Lawan Aliyu – Chief Executive Officer

As CEO, Lawan Aliyu provides strategic leadership, guiding the company's long-term vision and growth strategy. With decades of experience, he focuses on **corporate governance, innovation, and sustainable partnerships**, ensuring that Erudite remains a leader in infrastructure and energy development.

2. Abubakar Ismail – Head of Business Operations

Abubakar is responsible for driving operational excellence across Erudite. His expertise in **resource management, compliance, and client relations** ensures smooth coordination across departments. By strengthening efficiency and accountability, he enhances the company's ability to deliver complex, high-value projects.

3. Dr. Muntasir Dauda Sharif – Managing Director

Dr. Sharif is a legal expert and scholar with a focus on **energy, corporate governance, and environmental sustainability law**. Holding advanced degrees including a **Ph.D. in Climate and Energy Law**, he brings a wealth of experience from academia, corporate leadership, and legal practice. His strong background in governance, compliance, and sustainable energy transitions provides Erudite with a strategic advantage in navigating regulatory landscapes and advancing sustainable growth.

4. Ghali Ahmad – Head of Finance

Ghali is a finance and engineering professional with research experience at **King Fahd University of Petroleum & Minerals, Saudi Arabia**. He specializes in **financial governance, project evaluation, and energy systems**, combining technical and financial expertise to strengthen Erudite's fiscal management and support investment in renewable and infrastructure projects.

Core Business Sectors

Civil Engineering

Erudite delivers world-class civil engineering projects designed to meet the evolving needs of society. Our portfolio spans:

- Road construction and rehabilitation
- Bridge and structural works
- Building and housing projects
- Urban infrastructure development

We employ cutting-edge engineering practices, advanced construction technologies, and sustainable designs that enhance community resilience and economic growth.

Electrical Engineering

With expertise in electrical power systems, Erudite provides comprehensive services in:

- Supply, installation, and maintenance of transformers
- Power transmission and distribution networks
- Industrial and commercial electrical systems
- Electrification of rural and urban communities

Our approach integrates **efficiency, safety, and innovation**, ensuring uninterrupted power supply and optimized energy use.

Oil & Gas Services

Erudite plays an active role in the oil and gas value chain by providing tailored services such as:

- Pipeline design, construction, and maintenance
- Procurement and supply of oil & gas equipment
- Logistics and support services for upstream and downstream operations
- Technical manpower and consultancy

We uphold the **highest standards of health, safety, and environmental protection (HSE)** in all oil and gas projects.

Information & Communication Technology (ICT)

Our ICT division is focused on enabling digital transformation through:

- Software and application development
- ICT infrastructure deployment
- Networking and systems integration
- Cybersecurity and enterprise solutions

By combining innovation and technology, Erudite helps businesses, governments, and organizations improve efficiency, security, and digital resilience.

Energy & Renewable Solutions

In response to Nigeria's growing energy demands and global sustainability goals, Erudite is at the forefront of renewable and hybrid energy solutions, including:

- Solar farm design and installation
- Renewable energy systems for rural electrification
- Hybrid power solutions integrating solar, wind, and conventional energy
- Consultancy on energy efficiency and climate-friendly power projects

We are committed to **supporting the national energy transition agenda** by promoting clean, affordable, and reliable energy.

General Contracting

Erudite's general contracting division provides **end-to-end procurement, logistics, and project execution services** across diverse industries. We ensure that all projects are delivered **on time, within budget, and to the highest quality standards**.

Vision

To be the foremost Nigerian company delivering innovative and sustainable solutions in engineering, energy, ICT, and infrastructure, recognized for excellence, integrity, and positive impact on society.

Mission

Our mission is to transform communities and industries by providing world-class services in civil engineering, electrical systems, oil & gas, ICT, and renewable energy. We achieve this by leveraging innovation, skilled expertise, and strategic partnerships, while upholding the highest standards of safety, quality, and environmental responsibility.

Core Values

- **Integrity:** Conducting business with transparency and trust.
- **Excellence:** Commitment to quality and superior service delivery.
- **Innovation:** Driving growth through creativity and technology.
- **Sustainability:** Promoting environmentally responsible solutions.
- **Collaboration:** Building long-term partnerships with clients, stakeholders, and communities.
